

## Invited Faculty

Mariano de Blas, *San Sebastian, Spain*  
Fausto Castriota, *Cotignola, Italy*  
José María Cubero, *Sevilla, Spain*  
Alejandro Diego, *León, Spain*  
Javier Fernández-Portales, *Cáceres, Spain*  
José María Hernández, *Málaga, Spain*  
Rosana Hernández, *Madrid, Spain*  
Luigi Inglese, *Milano, Italy*  
Guillermo Izquierdo, *Sevilla, Spain*  
Mariano Larman, *Guipúzcoa, Spain*  
Manuel Maynar, *Tenerife, Spain*  
Antonio Moreno, *Murcia, Spain*  
Furuzan Numan, *Istanbul, Turkey*  
Julio Palmero, *Valencia, Spain*  
Paolo Pantaleo, *Rapallo, Italy*  
Eduardo Pinar, *Murcia, Spain*  
José María Sánchez, *Sevilla, Spain*  
Daniele Savio, *Turino, Italy*  
José Suarez de Lezo, *Cordoba, Spain*  
Carlo Trani, *Roma, Italy*  
Vasco Gama Ribeiro, *Vila Nova de Gaia, Portugal*

## Industry Support

We would like to sincerely thank the following companies for generously supporting Vascular Club International, Sevilla

Cardiva [www.cardivamedical.com](http://www.cardivamedical.com)  
Cordis Iberia [www.cordis.com](http://www.cordis.com)  
Biotronik [www.biotronik.com](http://www.biotronik.com)  
Edwards Lifesciences [www.edwards.com](http://www.edwards.com)  
LOGSA S.L. [www.logsa.es](http://www.logsa.es)  
Medtronic [www.medtronic.com](http://www.medtronic.com)  
Spectranetics [www.spectranetics.com](http://www.spectranetics.com)  
Terumo [www.terumo-europe.com](http://www.terumo-europe.com)

Friday, November 6, 2009

**10.15 – 10.30 Rationale for Vascular Club International. First Spanish Edition**

Panel: *M. de Blas, R. Ruiz-Salmerón, C. Rabbia, F. Numan*

**Welcome and general proposals**

- Joining professionals from different medical areas, working in the same endovascular environment fighting against cardiovascular disease
- Benefits of sharing knowledge, experience, and skills
- Vascular unit: effective multidisciplinary organisation

**10.30 – 13.30 Carotid Artery Stenting: “You act this way when problems arise ...”**

Panel: *G. Biamino, R. Ruiz-Salmerón, F. Castriota*

Participants: *M. Maynar, JM. Cubero, A. Moreno, F. Castriota, M. de Blas, C. Trani, P. Pantaleo, R. Ruiz-Salmerón, V. Gama Ribeiro*

**Part I**

**Facing a hostile neck**

- Problems with the aortic arch
- Tortuosity and calcification at CC

**The “Protection” issue**

- Keys to perform “no protection”
- Distal protection: Does it save my patient or does it get me into trouble?
- Proximal protection: Does it save my patient or does it get me into trouble?
- Vertebral/brachiocephalic artery stenting: to protect or not to protect?

**11.30 – 12.00 Coffee Break**

**Part II**

**Real symptomatic patients:**

How to deal with high thrombus-burdened lesions.

- To cool or not to cool?
- Proximal versus distal protection
- I selected the stent because of the thrombus

**Nasty surprises coming from:**

- Above: distal embolisation, additional intracranial carotid stenosis
- Below: coronary lesions, problems with the femoro-iliac access

**13.30 – 15.00 Lunch**

Friday, November 6, 2009

**15.00 – 16.30 Intracranial Corner**

Panel: *G. Biamino, M. Maynar*

Participants: *A. Moreno, G. Izquierdo*

Stroke unit organisation. The needs of the neurologists *G. Izquierdo*

Endovascular intervention for acute ischemic stroke.  
The Murcia experience. *A. Moreno*

**Intracerebral PTA/Stenting. Case presentations on the following topics:**

- Acute ischemic stroke and stable intracranial stenosis
- Current approaches and ongoing challenges. Balloon expandable versus self-expandable stents

**16.30 – 19.00 Transcatheter Heart Valve**

**Implantation: New Frontier in Endovascular Intervention.**

Panel: *M. de Blas, R. Ruiz-Salmerón*

Participants: *J. Suarez de Lezo, M. Larman, R. Hernández, E. Pinar, JM. Hernández, F. Castriota, P. Pantaleo, J. Palmero, L. Inglese*

**Part I**

**Edwards-Sapiens THV experience**

- Case presentation
- Practical appraisal: from A to Z

**17.30 – 18.00 Coffee Break**

**CoreValve THV experience**

- Case presentation
- Practical appraisal: from A to Z

**Assessment of vascular access. The radiologists’ help.**

Approaching mitral valve: implications for endovascular repair.  
Lessons from cardiac surgery. *L. Inglese*

Saturday, November 7, 2009

**9.30 – 11.00 Transcatheter Heart Valve Implantation:  
New Frontier in Endovascular Intervention.**  
*Panel: M. de Blas, R. Ruiz-Salmerón*  
*Participants: J. Suarez de Lezo, M. Larman, R. Hernández, E. Pinar,  
JM. Hernández, F. Castriota, P. Pantaleo, J. Palmero, L. Inglese*

**Part II**

**Getting to know ilio-femoral endovascular intervention better  
Call the experts!**

- Case presentation
- Practical appraisal: from A to Z
- What have we learnt from AAA interventions?

**Nasty surprises during THV implantation**

**My worst case**

- Complications involving Edwards-Sapiens THV implantation
- Complications involving Corevalve THV implantation

**11.00 – 11.30 Coffee Break**

**11.30 – 14.00 Endovascular therapy for lower limb:  
Femoro-popliteal and Below the Knee (Critical Limb Ischemia)**  
*Panel: C. Rabbia, G. Biamino, F. Numan, D. Savio*  
*Participants: G. Biamino, JM. Cubero, J. Fernández-Portales, JM. Sánchez,  
J. Palmero, M. Maynar, R. Ruiz-Salmerón*

Translational studies: proposing new models for stent evaluation.  
*A. Diego*

**How to perform an optimal vascular access**

- Antegrade femoral puncture: tricks from a low volume operator

**Femoro-popliteal stenting**

- I would like to present this case because ...

**Alternative endovascular therapies for femoro-popliteal arteries:  
the role of laser**

**Below the Knee revascularization**

- I would like to present this case because ...

**Alternatives for Critical Limb Ischemia: stem cell therapy**

- Case presentation

**14.00 – 15.00 Lunch**

Saturday, November 7, 2009

**15.00 – 16.00 Best Case Award**  
Selection of the three best cases

Conclusion

Adjourn

**Note: Case presentation and discussion language: Spanish – English.**
