

Madrid Microcirculation Meeting - 4th Edition -

Hospital Universitario de La Princesa

Directors:

- Prof. Bernard de Bruyne
- Prof. Nico Pijls
- Dr. Fernando Rivero
- Dr. Fernando Alfonso

29th - 30th November 2023

Location:

Hospital Universitario de La Princesa,
Innovation Room (1st Floor),
Madrid

Agenda.

Wednesday Nov 29th

16:30 – 16:35	Welcome	Dr Alfonso
16:35 – 16:50	Novelties in coronary physiology. Where are we?	Dr Pijls
16:50 – 17:05	Coronary microcirculation: opening the Pandora's box	Dr De Bruyne
17:05 – 17:20	Endotypes are clinically useful and should be determined	Dr Daemen
17:20 – 17:35	Practical organization of an ANOCA clinic	Dr De Bruyne
17:35 – 17:50	Microvascular dysfunction by bolus: tips & tricks thermodilution (CFR & IMR)	Dr Rumiz
17:50 – 18:05	Intracoronary adenosine for bolus thermodilution	Dr Mejía
18:05 – 18:20	Microvascular dysfunction by continuous thermodilution (AF & MMR)	Dr Pijls
18:20 – 18:35	AFINOCA Trial	Dr Rivero
18:35 – 18:50	Microvascular dysfunction and aortic stenosis	Dr Gutierrez Barrios
18:50 – 19:00	Absolut flow after successful CTO-PCI	Dr García Guimarães
19:00 – 19:15	Panel discussion	

Thursday Nov 30th

09:00 – 09:05	Welcome	Dr Alfonso
09:05 – 09:30	Basics of the principle of MRR	Dr Pijls
09:30 – 09:45	MRR in clinical practice	Dr De Bruyne
09:45 – 10:00	Angio-based microcirculation evaluation	Dr Cortés
10:00 – 10:15	Clinical management of ANOCA patients	Dr Roa
10:15 – 10:30	Coronary sinus devices (Reducer)	Dr Rodríguez
10:30 – 10:45	Panel discussion.	
10:45 – 11:15	Live Case #1.- Physiological assessment in ANOCA patient (& AMR)	Operators: Dr Cuesta / Dr Marschall / Dr. Cortés
11:15 – 11:30	Discussion on Case #1	
11:30 – 12:00	Coffee Break	
12:00 – 12:15	No-reflow. The RAINFLOW study	Dr Gomez-Lara
12:15 – 12:30	Treatment of microvascular obstruction in STEMI	Dr Brugaletta
12:30 – 13:00	Treatment of no-reflow by distal drug perfusion	Dr Otaegui
13:00 – 13:15	Epicardial & microvascular assessment in ACS (culprit & non-culprit)	Dr Gutiérrez Ibañez
13:15 – 13:45	Live Case #2.- Physiological assessment in ACS patient (& AMR)	Operators: Dr Bastante / Dr Del Val/Dr Cortés
13:45 – 14:00	Discussion on Case #2	
14:00 – 14:15	“Closing remarks”	Dr Pijls / Dr De Bruyne
14:15	Adjourn	Dr Alfonso
